INDEX OF ARTICLES PUBLISHED IN 1995 *RECORDS MANAGEMENT QUARTERLY*

SUBJECT INDEX

AUTOMATION

Balon, Brett, Dr., CRM
Secrecy and Authenticity
The U. S. federal government is implementing a security process for the National Information Infrastructure. It uses a secret military algorithm called Skipjack which is implemented in a computer chipset known as Clipper. This article considers the arguments for the encryption and its relation to the Clipper chipset.
Oct. 1995 Vol. 29 No. 4 Page 24

Bishop, Patsy G.
If Saber Saws Were Information Systems
In this article, the author presents a practical approach to solving a significant business problem. Without understanding the value of the information assets, businesses have difficulty in making good decisionrelated to investing in this information asset. This article explores how to determine the value of current information systems and suggests actions for increasing their value.
Oct. 1995 Vol. 29 No. 4 Page 32

Boyd, Fraser
People Make It Work
There is continuing pressure to increase the amount of technology used in the workplace. Unfortunately, it is often forgotten that people have to use this technology. This article notes the critical need for people considerations to be addressed and reminds us that in the final analysis it is still people who make the technology work.

ELECTRONIC IMAGING—SYSTEMS

Avedon, Don M.
Electronic Imaging 101 Part IV—Indexing, Compression and Software
This is the fourth in a series of articles providing a primer on electronic imaging. This installment covers three topics—indexing, compression, and software.
Jan. 1995 Vol. 29 No. 1 Page 32

Avedon, Don M.
Electronic Imaging 101 Part V—Communications
This is the fifth in a series of articles providing a primer on electronic imaging. This installment covers telecommunications as specifically related to document management. Telecommunications may well be the most important element in the future development and expansion of both document and data management systems.
Apr. 1995 Vol. 29 No. 2 Page 36

Avedon, Don M.
Electronic Imaging 101 Part VI—Systems, Hardware, Systems Integration and Workflow
This is the sixth in a series of articles providing a primer on electronic imaging. This installment covers systems and the hardware components that comprise the system as well as systems integration and workflow.
Jul. 1995 Vol. 29 No. 3 Page 22

Avedon, Don M.
Electronic Imaging 101 Part VII—Standardization, Legality, Getting Started, and Future Trends
This is the seventh and final article in a series providing a primer on electronic imaging. This installment covers several important issues—standardization, legal admissibility of electronically stored digital records, how to start an electronic imaging project and view of the future.

Opportunities Out of Chaos: Survival Strategies in the Information Age
Will instabilities in the corporate environment signify the downfall of traditional records management? Perhaps, but in this period of instability and transition there are a variety of specific and positive strategies which today's energetic, intelligent, and effective records management professionals will want to consider as they look ahead both personally and professionally.
Jul. 1995 Vol. 29 No. 3 Page 8

INFORMATION RETRIEVAL SYSTEMS

Connelly, Jim, CRM
Designing Records and Document Retrieval Systems
This article focuses on the need for more user involvement in the design process of document retrieval systems and how the process of memory can be harnessed in our designs. It describes the need for integrated "retrieval cues" that improve the storage and use of information.
Apr. 1995 Vol. 29 No. 2 Page 30

Savić, Dobrica
Automatic Classification of Office Documents: Review of Available Methods and Techniques
This article examines the present status of available knowledge and methodology which can be used for automatic classification of office documents. Besides a review of classic methods and techniques, the focus is also placed on the application of artificial intelligence.

LEGAL & ETHICAL RESPONSIBILITIES

Anderson, John C.
Brave New World: The Impact of Access Legislation on Retention in Alberta Municipalities
Access provisions in Alberta's new *Municipal Government Act* and the relevant provisions in its new *Freedom of Information and Protection of Privacy Act* demonstrate the care that must be exercised by a records manager when conducting the legal research necessary to create a new or revise a current retention program that complies with the access legislation.
Oct. 1995 Vol. 29 No. 4 Page 19

Anderson, John C.
How Lawyers Work—and Think
Contact with a lawyer can be intimidating. Talking to a lawyer can be a tense experience that leaves you more uncomfortable and more insecure than you were before the discussion. This article examines some of the factors that "create" a lawyer and some barriers to effective communication you may encounter when dealing with one.
Apr. 1995 Vol. 29 No. 2 Page 20

Farrell, Linda A., CRM
Preparing a Facility for Large Document Productions
The proliferation of lawsuits in the United States demands that more and more records managers become involved in the litigation support process. This article deals with facilities management and preparation issues—a first step in dealing with large document productions.
Apr. 1995 Vol. 29 No. 2 Page 12

Montaña, John C., JD
It Can Make You or Break You: The Importance of Records Management in Litigation
One of the justifications commonly given for developing a records management program and records retention schedules is that these activities "help in litigation." This article expands on that premise and details some of the roles that records management plays in commercial litigation.
